

BALDWIN HILLS SCENIC OVERLOOK TRAIL AND STORMWATER IMPROVEMENT PROJECT

Due to the overwhelming popularity of the stairs and trails at Baldwin Hills Scenic Overlook, CA State Parks is embarking on much needed restoration of the park.

This \$1.1 million project will enhance the public benefit and protect it for your enjoyment.

CONSTRUCTION NOTICE

SECTIONS OF STAIRS AND TRAILS WILL BE CLOSED FOR CONSTRUCTION AND RESTORATION WORK
May 1, 2018 through April 30, 2020

GOALS OF THE PROJECT

- Improvements to stairs and trails will make them easier and safer for you to use.
- Trails and stairs will be redesigned for stormwater and erosion issues helping to improve our water quality.
- Planting native vegetation to enhance the park for your ongoing recreation.
- Educational signs suggesting ways for people to reduce their environmental footprint.

The stairs and trails will be closed in sections.
Detours will always be provided for your continued use of the park.

Please respect closures during construction.
Please stay on the trails.

The switchback trail design at this park is sustainable and minimizes erosion.
Some of the “volunteer trails” (red trails on map) will be closed to prevent excessive damage to vegetation and soils.
